

VERTERE CHALLENGER

Introduction

Thank you for purchasing the Vertere **Challenger** dedicated DC power supply. Countless hours of investigative listening and testing has provided an astonishing upgrade to the performance of the DG-1 record player and the Tempo motor drive. **Challenger** takes the performance of our worldwide award-winning record players to yet a new level.

Challenger is manufactured to exacting standards to provide you with many years of musical enjoyment.

Installation

It is important to ensure **Challenger** has sufficient clear space around it where it is to be installed. It's best to allocate a small area on a equipment rack or self - Avoid placing on carpets.

Use the mains cable provided and attach it to the AC input socket on the **Challenger** but do not connect it to the wall mains socket yet.

Next connect the DC plug on the output cable to the DG-1 or the Tempo Motor Drive. Now you can plug the mains cable to the wall socket.

The green Power LED light on the **Challenger** and the power indicator lights on the DG-1 or the Tempo should now all illuminate.

Now it's time to enjoy the performance enhancement the challenger brings - Play a record ...

Maintenance & Cautions _____ IMPORTANT

After disconnecting the mains cable, the **Challenger** may be cleaned with a soft cloth or chamois leather.

Avoid using abrasives or solvents.

Important Note:

Disconnect the unit from the mains supply before cleaning. **DO NOT** use fluids to clean the unit.

It is important that at no time any fluid gets inside the unit.

DO NOT attempt to gain access to the inside of the unit.

This product is designed to comply with:

Electromagnetic Compatibility Directive 2004/108/EC

Restriction of Hazardous Substances (RoHS2) Directive 2011/65/EU

Waste of Electrical and Electronic Equipment Directive 2012/19/EC

This product bears the CE mark

Standards applied are those which were in force at the time of the introduction of this product. Please ensure that other equipment connected to it is earthed according to the manufacturer's instructions.

Products that display the crossed-out wheeled bin logo cannot be disposed of as domestic waste. These products must be disposed of at facilities capable of re-cycling them and appropriately handling any waste by-products.

Contact your local authority for details of the nearest such facility. Appropriate recycling and waste disposal helps conserve resources and protects the environment from contamination.

GENERAL CAUTIONS

FCC WARNING

This equipment may generate or use Radio Frequency energy. The user may lose the right to operate this equipment if unauthorised modifications are made.

INTERFERENCE

Properly installed, this unit should not cause harmful interference to radio communications, There is, however, no guarantee that such interference will not occur in a specific installation. If interference arises (which you can determine by switching the unit off and on) you could try to remedy matters by the following

- Re-orient or re-locate the receiving antenna
- Increase the distance between the Challenger and receiver
- Connect the unit to a different mains circuit from that of the receiver
- Consult your Vertere appointed dealer or an experienced Radio/TV technician for help and advice

Challenger | Redline

Your Vertere **Challenger** dedicated DC power supply performance can be further improved using a Vertere Redline Mains Cable.

Simply replace the supplied mains cable with the Redline version and enjoy the improved performance.

We highly recommend that you consult with your Vertere retailer for advice and demonstration to verify the advantages of using the upgraded Redline mains cable.

Redline Mains Cable is available with UK, EU, US, CH & AU plugs.

Images show UK, EU & US versions.
